PROFESSIONAL EXPERIENCE

NetSuite Technical Consultant (Solution Design and Automation)	May 2022 – Present
<i>Ignitive Software Labs</i>	<i>Indore, India</i>
<ul style="list-style-type: none">Designed and implemented custom NetSuite solutions using SuiteScript 2.1 to automate complex business processes, enhancing operational efficiency.Spearheaded integrations between NetSuite and external systems using REST APIs to streamline data flows and ensure compliance.Led automation initiatives for tax compliance and financial transactions, reducing manual effort and improving process accuracy.	

PROJECTS

Tax Automation Suite <i>SuiteScript 2.1, REST APIs, SFTP, NetSuite</i>
<ul style="list-style-type: none">Designed and implemented a SuiteScript 2.1 solution for automating e-Invoice and e-Way Bill generation, reducing compliance errors by 50%.Integrated NetSuite with Indian tax portals via REST APIs, enabling real-time data submission for GST compliance.Automated e-Invoice and e-Way Bill processes, ensuring compliance with Indian regulations.Developed Client Scripts and User Event Scripts to automate tax portal integrations, including TDS and GST.Implemented TDS calculations for vendor prepayments, reducing tax processing time by 40%.Automated vendor bill and journal entry creation using CSV files via SFTP with Map/Reduce scripts.

Inventory Optimization | *SuiteScript 2.1, NetSuite*

- Developed a Map/Reduce script to process inventory balances with formula-based filtering, improving stock accuracy.
- Created inventory status change records to streamline adjustments for multi-location data.
- Built Map/Reduce scripts to process large datasets for inventory and sales order management.
- Customized NetSuite transactions (Sales Orders, Purchase Orders, Invoices, Journal Entries) to streamline operations.

Workflow Automation Suite | *SuiteScript 2.1, REST APIs, EZEE Portal, NetSuite*

- Developed SuiteScript 2.1 User Event, Client, Scheduled, and Map/Reduce Scripts to automate workflows, reducing manual effort.
- Integrated NetSuite with third-party systems using REST APIs for real-time synchronization.
- Managed NetSuite transactions such as Item Fulfillments and Work Orders to optimize workflows.
- Created Scheduled Scripts for recurring data processing, saving 15 hours weekly.
- Integrated EZEE Portal with NetSuite to automate invoice and journal entry creation.

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS, SuiteScript 2.1, SuiteScript 2.0, SuiteScript 1.0

Technologies: NetSuite ERP, REST APIs, SuiteTalk, SuiteFlow, SFTP, EZEE Portal

Tools: VS Code, Postman

Domains: ERP Customization, Tax Compliance, Workflow Automation, System Integrations with NetSuite

EDUCATION

Graphic Era University	Dehradun, India
<i>Bachelor of Technology</i>	<i>2016</i>
Shri Govindram Seksaria Institute of Technology and Science	Indore, India
<i>Master of Engineering</i>	<i>2021</i>
